Red Panda 10/10/22	The Himalayas are a vast mountain range in southern Asia. This mountain ranges varied climate and geography make it a great habitat for a diversity of wildlife. The region is home to more than 300 mammal species. One of these mammals is the red panda. There are two species of red panda, both of which are endangered. These red pandas live mainly in Nepal, but can also be found in India, Bhutan, Myanmar, and southwestern China. Red pandas live mostly in bamboo forests. These animals are about the size of a house cat and are skillful climbers. Their thick reddish-brown fur protects them from the harsh mountain weather. They spend most of their time in trees, sleeping or eating bamboo. They also forage for nuts, berries, and insects. Like many other animal species in this region, their populations have been declining due to human activity.
Pollinators - Damian 7th 10/2022 (Quarter 2 Interim)	These hard working animals help pollinate over 75 percent of our flowering plants, and nearly 75 percent of our crops. Often we may not notice the hummingbirds, bats, bees, beetles, butterflies, and flies that carry pollen from one plant to another as they collect nectar. Yet without them, wildlife would have fewer nutritious berries and seeds, and we would miss many fruits, vegetables, and nuts, like blueberries, squash, and almonds, not to mention chocolate and coffee, all of which depend on pollinators.

Monday Test 102422	Hello
teacher long reader doc	“Sonic Adventure[a] is a 1998 platform game for Sega's Dreamcast, and the first main Sonic the Hedgehog game to feature 3D gameplay. The story follows Sonic the Hedgehog, Miles "Tails" Prower, Knuckles the Echidna, Amy Rose, Big the Cat, and E-102 Gamma in their quests to collect the seven Chaos Emeralds and stop Doctor Robotnik from unleashing Chaos. Controlling one of the six characters—each with their own special abilities—players explore a series of themed levels to progress through the story. Outside the main game, players can play minigames like racing and interact with Chao, a virtual pet. Following the cancellation of the Sega Saturn game Sonic X-treme, Sonic Team began work on Sonic Adventure in 1997. A 60-member development team created the game in ten months, drawing inspiration from locations in Peru and Guatemala. Yuji Uekawa redesigned the characters for their transition to 3D, and features were added to take advantage of the Dreamcast hardware. Sega announced the game in August 1998; it was released in Japan that December and worldwide in September 1999. The game received critical acclaim and, with 2.5 million copies sold by August 2006, became the Dreamcast's bestseller. Reviewers lauded the game's visuals and gameplay, calling it a major technological advancement; some speculated that it could re-establish Sega as the dominant console manufacturer after the relatively unsuccessful Saturn. Others were frustrated by the camera controls and glitches, and reactions to its audio were mixed. Despite this, journalists have ranked Sonic Adventure among the best Sonic games, and it is recognized as an important release in both the series and the platform genre. A sequel, Sonic Adventure 2, was released in 2001.”
Greetings1	And salutations.
Good Morning Me	This is me saying good morning to me.
Test Reader	This is just a test. It shows how sentences break down. And how we can move around in text. Bye!
